

Oregon Public Transportation Plan

Summer 2018

OPTP Vision

In 2045, public transportation is an integral, interconnected component of Oregon's transportation system that makes Oregon's diverse cities, towns, and communities work. Because public transportation is convenient, affordable, and efficient, it helps further the state's quality of life and economic vitality and contributes to the health and safety of all residents, while reducing greenhouse gas emissions.

What is the OPTP?

The OPTP is a statewide mode plan that applies Oregon Transportation Plan policy to public transportation

Why a public transportation plan?

An important part of the whole transportation system

Benefit to communities, residents, employers, visitors

Provide a foundation for response to change, new opportunities

OPTP Objectives

Provide
shared vision

Describe roles
and strategies
for public
transportation

Provide a
foundation for
investment
decisions

What is new in this OPTP?

Focus is statewide

- Both urban and rural
- Recognizes diversity of communities

Works with other recent mode plans

- Bicycle and Pedestrian
- Transportation Options
- Rail

Who has been involved?

Stakeholders and Public

Policy, Technical Committees

Stakeholder interviews, survey

2 Conference Workshops

3 rider focus groups

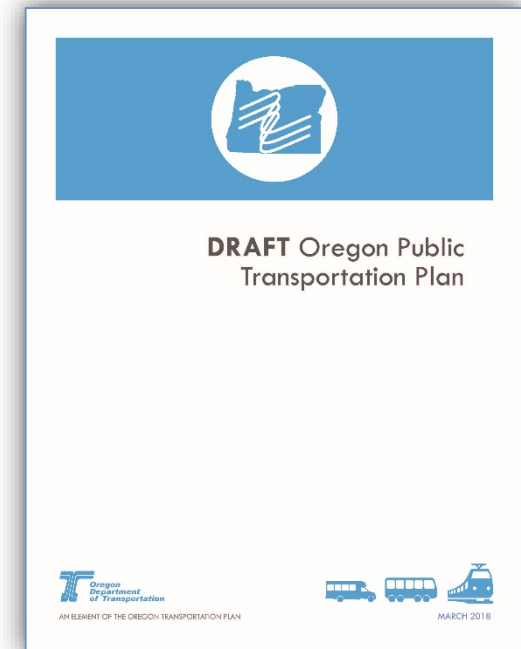

3 rounds of public outreach

How OPTP responds to feedback given

Goals, policies, strategies, other content to address

- Improved agency collaboration
- Better connections between systems and regions
- Reliable, easy to use service
- Work with bike-ped, transportation options
- Safe access and feeling safe on, around transit
- Building a culture of transit

OPTP Goals

Mobility: Public Transportation
User Experience

Safety & Security

Accessibility & Connectivity:
Getting from Here to There

Environmental
Sustainability

Community Livability &
Economic Vitality

Land Use

Equity

Strategic Investment

Health

Communication,
Collaboration, &
Coordination

OPTP Chapters

1

Intro,
context

2

Back-
ground

3

Goals,
policies,
and
strategies

4

Invest

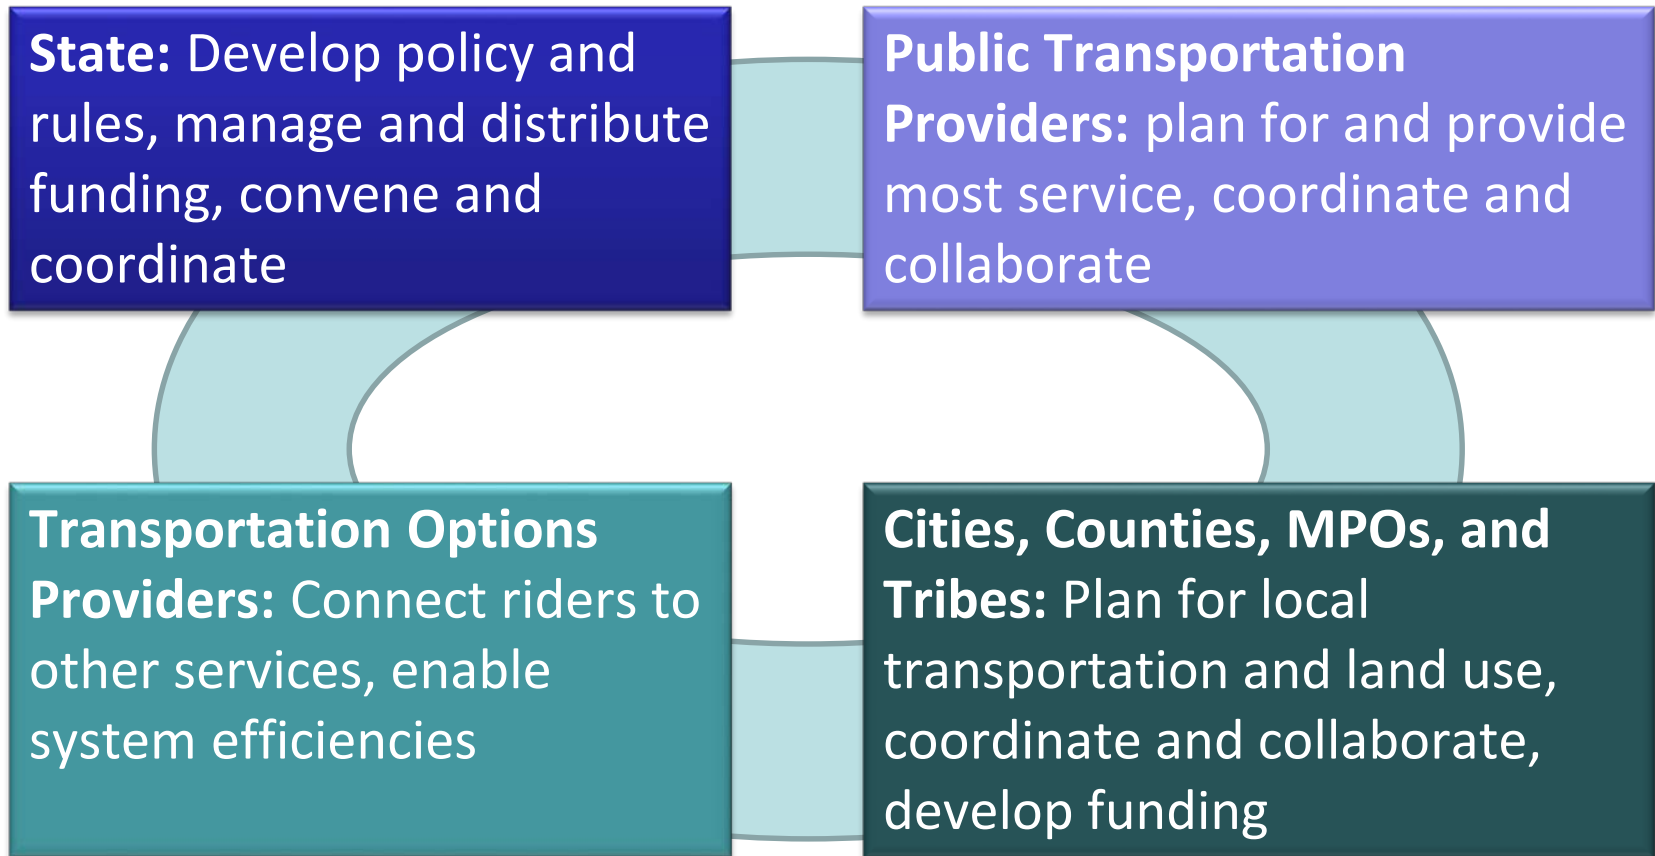

5

Implement

Public Transportation Roles and Responsibilities

How does the OTP relate to HB2017 and STIF?

OTP works with HB2017 and STIF

Reflects HB2017 inputs and priorities

Builds on these through long term plan

Supports planning, coordination, partnerships

Provides guidance for investment decisions

Draft STIF rules also reflect OTP

OPTP Key Initiatives

Public
Transportation
Plan
Integration

Regional and
Intercity
Service

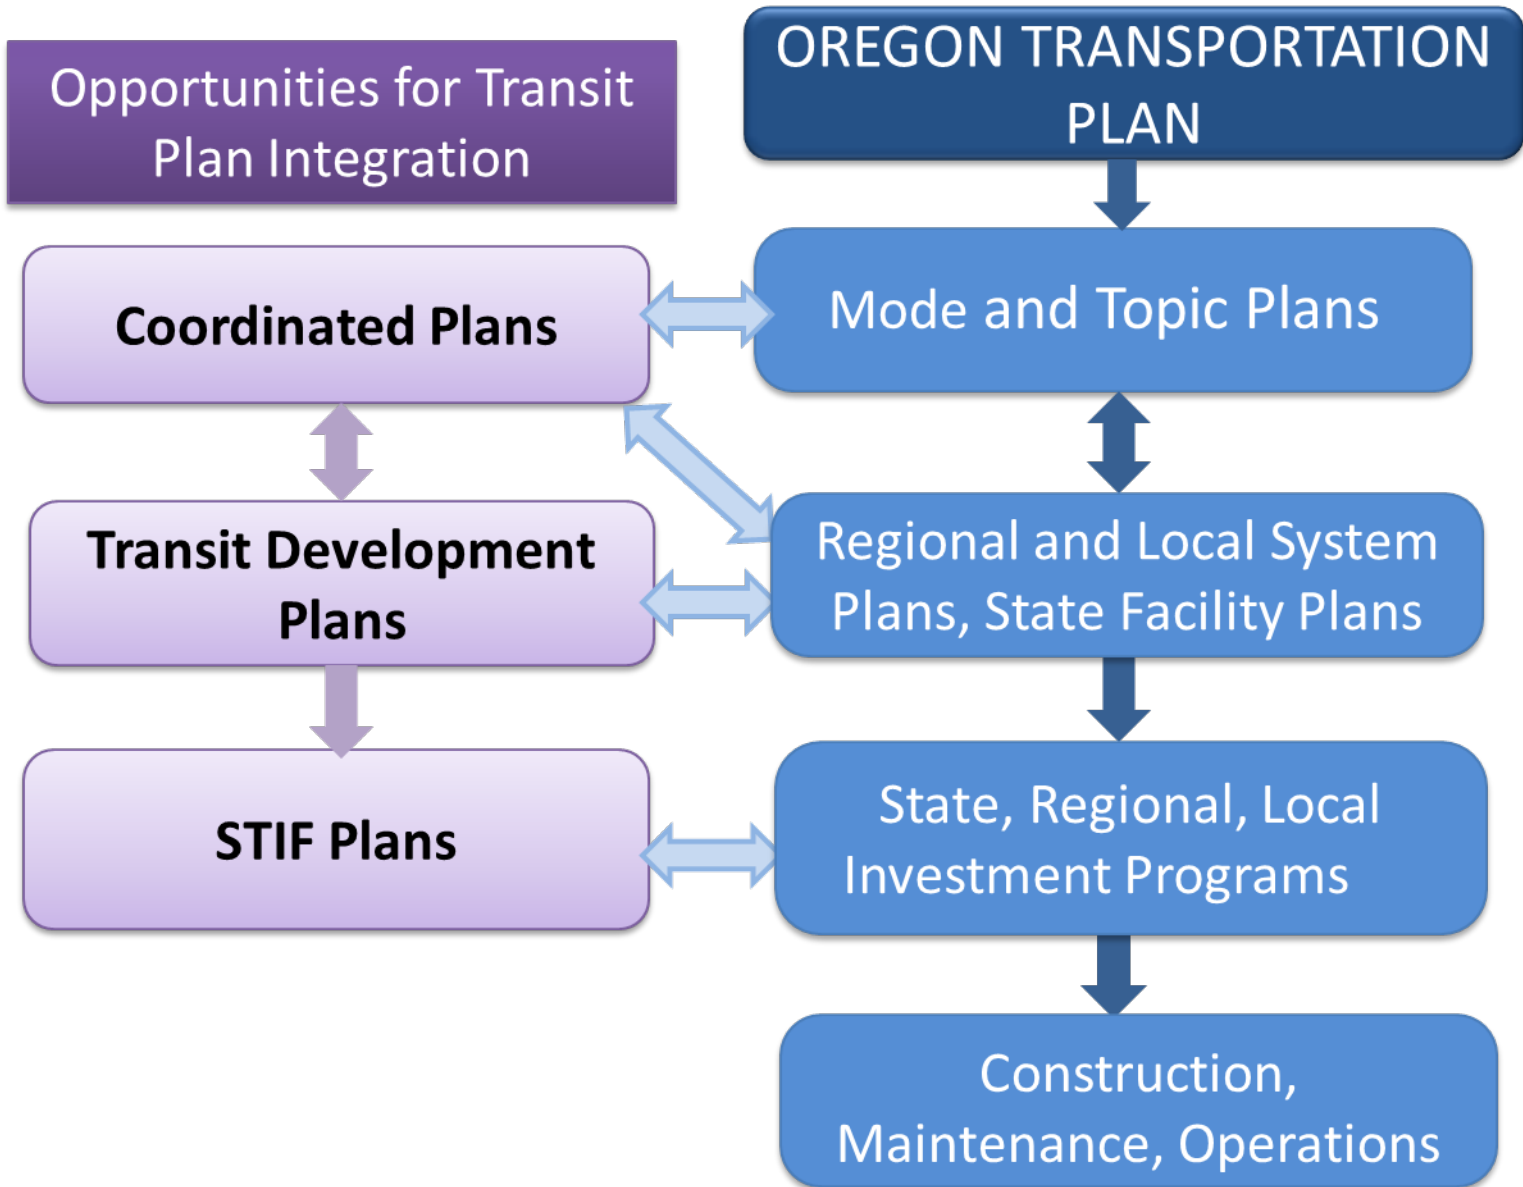

Public
Transportation
Technology
