

2010—2013 D-STIP Glencoe Interchange

Key Number: 12885

Project Location: US 26 @ Glencoe Road (MP 57.16); Washington County

Contact Person: David Kim Phone: 503.731.4998

Total Estimated Project Cost: \$26 million

Funding approved: \$522,000 was approved in the 06-09 STIP for PE and \$4,727,000 in the 2008—2010 STIP for PE and protective right-of-way purchase for interchange and PE for Glencoe Rd. Washington County is contributing \$1.2 million.

Funding proposed: \$6,000,000 for PE and protective right-of-way purchase for interchange for Glencoe Rd.

Project Description: The project will widen the Glencoe Road overcrossing of U.S. 26 to correct existing horizontal clearance, vertical clearance and seismic deficiencies while providing for a flatter and less hazardous grade for truck traffic. Widening the interchange would provide for additional motor vehicle capacity and allow for bike lanes and sidewalks on both sides of the overpass. The project also includes improvements on Glencoe Road from the interchange to the West Union cross road.
